

NIE Networks Environmental Statement

We will endeavour to act in a responsible manner at all times with respect to environmental performance:

- Ensuring core values and beliefs are upheld
- Utilising industry best practice, to achieve legal compliance
- Adopting initiatives & solutions which have a long-term positive impact.

Working to:

- Prevent air, water and ground contamination / pollution
- Maintain legislative, regulatory and all other compliance obligations
- Honour our Statement on the Preservation of Amenity and Fisheries
- Consult as appropriate with relevant agencies / stakeholders
- Develop and refine our ISO14001 Environmental Management System through continual improvement, exceeding objectives & targets where possible
- Reduce the impact of our activities on the environment

Reduce our own carbon footprint through:

- Promoting the efficient use of energy
- Reducing burden on landfill and maximise the re-use of materials
- Minimising the impact of transport fleet
- Environmentally sustainable procurement principles
- Promoting and facilitating renewable energies and network integration
- Training and encouraging all employees in environmental matters

This Statement aligns with our Sustainability Policy, Sustainability Action Plan, Environmental Business Plan and Environmental Policy, and is formally reviewed through our regular Management Review meetings.

Derek Hynes
Managing Director, NIE Networks
